OxyData AV

Ambient Air & Ventilator, Oxygen Hood Monitoring

Purity
21.0

OxyData - AV

Oxy Data

Medical Oxygen Gas Analyser
www.WaveVisions.in

Measures Oxygen Purity

Applications:

- ICU, OT environment
- Ventilator
- Anesthesia Trolley
- Baby Oxygen Hood
- Room Air environment

2 Years Warranty

- All OxyData have Electronic Sensors (Non-Electrochemical)
- No Re-calibration required
- All OxyData sensors have a typical life of more than 5 years
- Graphical trends & numerical data on mobile screen with OxyData App
- Set alarms for different parameters
- Generate, Share & Print report

Features:

Accurate real-time monitoring of Oxygen Purity and Temperature

Small, Compact, handheld unit with all sensors embedded in the device

2 years warranty of device including all sensors

No calibration required

User adjustable High-Low alarms for all parameters

Side Stream sampling technology

Android Mobile App via Bluetooth for trend, data storage and printing from your mobile

Specifications:

Measurement -
- **Oxygen: 0-100% to with +/- 2 % accuracy, 0.1% Resolution**
- **Temperature: 0 to 50^0 C with 1^0 C accuracy, 0.1^0 C Resolution**

Display : Multicolor OLED with battery low indication

Battery : Re-chargeable using Android charger

Battery working duration after full charge : 4 hours

Dimensions : 180 mm x 95 mm x 45 mm, Weight : 250 gm
