

OxyData G

Oxygen Generator Plants and Medical Gas Pipeline-Spot checking-Handheld

Measures In-Line Oxygen Purity On Pressurized Pipeline – Handheld model

Applications:

- Hospital Gas Pipeline
- OT, ICU, Oxygen Bed, etc
- Nursing station monitor

Warranty

- 2 Years Warranty & Long-Life Sensors

Measured Parameter / Model Number	OxyData - G	OxyData - GP
OxyData Purity	0-100 %	0-100 %
Pressure	-	0-100 PSI
Flow Rate	-	-
Temperature	0-50 °C	0-50 °C

Download OxyData App
from Google Play Store or scan to download

Features:

- Accurate real-time continuous monitoring of Oxygen Purity & Pressure**
- Small, Compact Handheld device with sensors embedded in the device**
- Side stream sampling technology**
- No calibration required**
- User adjustable High-Low alarms for Oxygen Purity, Pressure**
- Built-In Rechargeable battery with Battery Backup of 6-8 hours**
- Android Mobile App for trend, report and printing from your mobile**

Specifications:

Measurement -

- **Oxygen: 0% to 100% with 2 % accuracy, 0.1 % Resolution**
- **Pressure : 0-7 bar (0 to 100 PSI) with 1% accuracy, 0.1 PSI resolution**

Pipeline pressure for Oxygen Purity measurement : 3 to 7 bar (45 PSI to 100 PSI)

Display : Multicolor OLED

Battery : Re-chargeable using Android charger

Battery working duration after full charge : 8 hours

Dimensions : 135 mm x 85 mm x 30 mm, Weight : 200 gm

Other OxyData Models

OxyData AV

**Ambient Air & Ventilator,
Oxygen Hood Monitoring**

OxyData P

**Oxygen Generator Plants &
Medical Gas Pipeline
(Fixed Panel mounted)**

OxyData C

**Oxygen Concentrator and
Oxygen Delivery Monitoring**
